FARMERS' BULLETIN No. 1276.—THE VELVET BEAN:	
Description	1
History	3
Varieties	3
Distribution	8
Extent of culture	9
Soil preferences	9
Fertilizers	10
Inoculation	10
Time of planting	11
Methods of planting	13
Rate of seeding	15
Uses of velvet beans	16
Continuous cropping	19
Harvesting	20
Threshing	21
Grinding	22
Feed	22
Insects	27
FARMERS' BULLETIN No. 1277.—DISEASES OF WATERMELONS:	
Cooperation for the control of watermelon diseases	3
Descriptive key to watermelon diseases	4
Wilt	4
Root knot	7
Gummy stem blight	7
Ground rot	8
Anthracnose	9
Stem-end rot	18
Transportation problems	27
Minor diseases	29
Summary of control measures	30
FARMERS' BULLETIN No. 1278.—TRACTORS ON SOUTHERN FARMS:	
Farms on which tractors are owned	4
Sizes of tractors	5
Advantages and disadvantages	6
Are these tractors profitable?	8
The best size	9
Is the farm largs enough?	9
Cost of tractor and equipment	10
Life and depreciation	10
Repairs	11
Days used annually	12
Work which tractors do	13
Work done per day	15
Fuel requirements	16
Lubricating oil	16
Cost of operation	17
Man labor saved	19
Increase in size of farm	20
Reduction in work stock	20
Reliability	22
Quality of work	23
Why some tractors are unprofitable	24

	Page
FARMERS' BULLETIN No. 1279.—PLAIN CONCRETE FOR FARM USE:	
Introduction	1
Materials	1
Proportioning the materials	6
Quantities of materials required	7
Consistency	8
Estimating	9
Forms	10
Mixing	13
Placing	18
Care of concrete	21
Protection from freezing weather	21
Contraction and expansion joints	23
Lintels	23
Surface finish	24
Concrete exposed to fire	25
Water-tight concrete	26
FARMERS' BULLETIN No. 1280.—THE HARD RED WINTER WHEATS:	
The hard red winter class of wheat	1
Where hard red winter wheats are grown	1
Areas to which hard red winter wheats are adapted	2
Varieties	3
FARMERS' BULLETIN No. 1281.—THE HARD RED SPRING WHEATS:	
The hard red spring class of wheats	3
Where hard red spring wheats are grown	3
Areas to which hard red spring wheats are adapted	4
Varieties	5
FARMERS' BULLETIN No. 1282.—NICOTINE DUST FOR CONTROL OF TRUCK-CROP INSECTS:	
Reasons for adopting nicotine dust	3
What is nicotine dust?	3
How to prepare the dust	4
Combinations of nicotine dust with other insecticides and with fungicides	6
Action of nicotine dust	7
Time of application	8
Number of applications	8
Strength of nicotine to use	9
Loss of strength	9
Types of dusting machinery	10
Hand dusters	10
Horse-drawn dusters	12
Power dusters	12
The melon aphis	14
The cabbage aphis	15
The pea aphis	16
The onion thrips	19
Cucumber beetles	21
Other insects	22
Disadvantages of nicotine dust	22
Summary	23
FARMERS' BULLETIN No. 1283.—HOW TO GROW ALFALFA:	
Description of alfalfa	1
History	1
Acreage	3
Varieties	4
Climatic and soil relations	7
Choosing a field for alfalfa	8
Preparation for alfalfa	9
Sowing alfalfa	14
Instructions for growing alfalfa, by sections	19
Treatment	25
Cultivating alfalfa	26
Making alfalfa hay	27
Uses of alfalfa	28
Seed production	29

FARMERS' BULLETIN NO. 1283.—HOW TO GROW ALFALFA—Continued. Page
Breaking alfalfa sod 31
Weeds 31
Diseases 32
Insects 33
Rodents 35
FARMERS' BULLETIN NO. 1284.—APPLE-ORCHARD RENOVATION:
The problem stated 3
Types of orchards that may be renovated 4
Some ideals as a guide 6
Soil management and fertility in apple-orchard renovation 8
Fertilizers and manures for apple trees 12
Pruning the trees 15
Pruning tools 20
Scraping the trunks of the trees 21
Spraying to control insects and diseases 22
General management of the orchard during renovation 25
Top grafting and other special practices 25
Natural braces 32
FARMERS' BULLETIN NO. 1285.—LIME-SULPHUR CONCENTRATE. PREPARATION, USES, AND DESIGNS FOR PLANTS:
A valuable spray, easily prepared 1
Uses of lime-sulphur 2
Dormant spray 2
Delayed-dormant spray 2
Summer spray 2
Homemade versus commercial concentrates 2
General comparison 2
Making lime-sulphur on the farm 3
Materials for making 3
Lime 3
Sulphur 4
Chemical reactions in the making of lime-sulphur concentrate 5
Formulas for making lime-sulphur concentrate 5
Preparation of lime-sulphur concentrate 6
Sources of heat 6
Agitation 6
Making the concentrate 7
Cleaning the cooking tank 9
Sediment or sludge 9
Settling tanks 9
Testing the concentrate 9
Storing the concentrate 9
Diluting for spraying purposes 10
Lime-sulphur plants 11
Size of plants 11
Small orchard plants 11
Large orchard or community plants 29
Characteritistics of equipment 37
Cooking tank 37
Hot-water tank 38
Storage tanks 39
Furnace and flue 39
Agitators 40
Engine and pulley sizes 41
Arrangement and location 41
FARMERS' BULLETIN NO. 1286.—THE RED-NECKED RASPBERRY CANE BORER:
Injurious work of the borer 1
Description of the insect 1
Distribution, food plants, and extent of injury 3
Injury by the beetle 3
Seasonal history and habits 4
Natural enemies 5
Remedy 5

	Page
FARMERS' BULLETIN No. 1287.—FOREIGN MATERIAL IN SPRING WHEAT:	
Foreign material defined	3
Dockage (separable foreign material)	5
Foreign material other than dockage	6
Foreign material increasing in spring wheat	6
Factors tending to increase foreign material	8
Objections to foreign material	9
Benefits derived from clean wheat	11
Methods of cleaning wheat	11
Cleaning wheat on the farm	11
Cleaning wheat at country elevators	13
Description and adaptability of cleaning machines	14
Sieve and air machines	15
Special cleaning machines	15
Recleaner for threshing machines	20
FARMERS' BULLETIN No. 1288.—GAME LAWS FOR 1922.—A SUMMARY OF FEDERAL, STATE, AND PROVINCIAL STATUTES:	
Review of legislation of 1922	1
Summary of laws relating to seasons, licenses, limits, sale, and export	6
State laws	7
Canada	43
Newfoundland	51
Lower California (northern district)	51
Imported game and game raised in captivity	51
Lacey Act, regulating interstate commerce in game	56
Tariff act, regulating importation of plumage, game, etc	58
Law protecting birds and their eggs on Federal bird reservations	59
Hunting on national forests	59
Treaty for the protection of migratory birds	59
Migratory-bird treaty act	63
Migratory-bird treaty act regulations	65
Order permitting the killing of bobolinks, reedbirds, or rice birds	71
Canadian regulations under migratory-birds convention act	72
Canadian tariff act, prohibiting importation of plumage, mongooses, etc	78
Officials from whom copies of game laws may be obtained	79
Publications relating to game	80
FARMERS' BULLETIN No. 1289.—DISTRIBUTION OF TYPES OF FARMING IN THE UNITED STATES:	
Purpose of this bulletin	1
Classes of factors controlling the distribution of farm enterprises	2
Distribution of major crops	4
New England	4
Logical types of farming	7
Growing feed grains	10
New York	12
The Cotton Belt	12
Mountain and Pacific Coast States	18
The Plains States	20
The Corn Belt	22
FARMERS' BULLETIN No. 1290.—THE BULK HANDLING OF GRAIN:	
Development of bulk handling	3
Advantages of bulk handling	5
Time and labor saved	5
Cost of handling reduced	8
Cost of bags and twine eliminated	9
Waste from leaky bags prevented	9
Ease and accuracy of inspection	10
Conditioning of grain facilitated	11
Equipment for bulk handling	11
Farm equipment	11
Farm storage	17

FARMERS' BULLETIN NO. 1291.—PREPARATION OF FRESH TOMATOES FOR MARKET:

	Page
Relation of growing systems to market quality	4
Commercial varieties	5
Harvesting	6
Packages	11
Farm packing	14
Central packing houses	15
Grading	28
Inspection	29
Loading	31
Better methods necessary	32

FARMERS' BULLETIN NO. 1292.—ORGANIZATION AND MANAGEMENT OF COOPERATIVE LIVESTOCK SHIPPING ASSOCIATIONS:

Reasons for cooperative shipping	1
Origin and extent of movement	2
Advantages of shipping associations	2
Form of organization and incorporation	3
The manager	5
Bonding the manager	6
Duties of members	6
Assembling a shipment	7
Marking	7
Selling livestock and prorating expenses	10
Expenses	12
Some practical results	12
Suggestions for cooperative shippers	14
Causes of failure	17
Summary	18
Appendix—By-laws for cooperative livestock shipping associations	20

FARMERS' BULLETIN NO. 1293.—LAWS RELATING TO FUR ANIMALS, 1922:

Legislation of 1922	1
Summary of laws	2
Federal laws	2
Laws of States	3
Laws of Canada	22
Laws of Newfoundland	28
Laws of Lower California	28
Officials from whom copies of laws may be obtained	29
Publications relating to fur animals	30

FARMERS' BULLETIN NO. 1294.—THE EUROPEAN CORN BORER AND ITS CONTROL:

A pest of prime importance	1
History of the insect in the United States	2
Distribution in North America	2
Probable method of introduction	4
Plants attacked by the insect in this country	4
Character of injury to corn	6
Character of injury to plants other than corn	11
Extent of injury to corn	11
Extent of injury to vegetables, flowers, and field crops other than corn	16
Seasonal history and habits	21
Natural enemies	26
Insects frequently mistaken for the European corn borer	27
Preventing the spread of the insect	32
Penalty for violation of plant quarantine act	34
Artificial carriers other than quarantined plants	34
Control of European corn borer	35
Ineffective measures	35
Methods of control effective under restricted conditions	36
Protecting greenhouse plants	38
Methods recommended in market gardens	38
General methods of suppression and control	39
Summary of control and restrictive measures	43

XUM

FARMERS' BULLETIN NO. 1295.—WHAT TRACTORS AND HORSES DO ON CORN BELT FARMS: Page
Adaptability of different forms of power 1
Relative reliability 3
Choice of power for specific operations 3
FARMERS' BULLETIN NO. 1296.—CHANGES EFFECTED BY TRACTORS ON CORN BELT FARMS:
Reduction in number of work stock 1
Saving in man labor 4
Increase in size of farm 7
Change in cropping system 8
Change in size of fields 8
Change in livestock enterprises 9
Machinery 9
Conclusion 10
FARMERS' BULLETIN NO. 1297.—COST OF USING TRACTORS ON CORN BELT FARMS:
Depreciation 3
Interest 6
Repairs 6
Fuel and oil 7
Other costs 9
Total cost of use 11
Suggestions for reducing cost of using tractors 13
FARMERS' BULLETIN NO. 1298.—COST OF USING HORSES ON CORN BELT FARMS:
Importance of horsepower costs 1
Cost of keeping work horses 2
Feed and bedding 4
Suggestions for better feeding practices 5
Chores 8
Depreciation 8
Interest 9
Stabling 10
Harness costs 11
Shoeing 11
Miscellaneous costs 11
Manure credit 11
Cash cost of keeping work stock 11
Cost of horsepower 12
FARMERS' BULLETIN NO. 1299.—SHALL I BUY A TRACTOR? (FOR A CORN BELT FARM):
Size of farm 1
Topography 2
Soil 3
Size of fields 3
Work which tractors will do 4
Drawbacks to ownership and use 6
Benefits from ownership and use 8
FARMERS' BULLETIN NO. 1300.—CHOOSING A TRACTOR (FOR A CORN BELT FARM):
Size of tractor 1
Type of tractor 5
Fuel 7
Reliability 8
Accessibility 9
Accessories and extra equipment 9
Comfort and safety of operator 10
The belt pulley 11
First cost 12
